CIBO EE Virtual Meeting

March 8, 2022

ECMPS 2.0 Reengineering

What's Changing?

- Migration to a web-based reporting platform
- Updated reporting instructions
- New Json file format
- CDX login
- CBS updated to CDX as well
- No shared vs standalone

What's not Changing

- No changes to required data or regulations
- No real changes to reporting instructions
- DR/ADR agent delegation still CBS
- CBS updated to CDX as well

ECMPS 2.0 Beta Key Dates

- Dec. 14th - Monitoring Plan Beta Released
 - Included view add/edit functionality
 - No user specific facility access
 - Does not include import, export, or submit
- Spring 2022
 - MP import and export coming soon
 - QA Beta functionality added incrementally
- Mid 2022
 - Emissions Beta functionality
- Production 2023 Q1
 - Target Q1 2023 emissions data submitted under ECMPS 2.0

ECMPS 2.0 Beta – Your Role

- No login required to view
- CDX test login to add/edit facility data
- Stay in your lane
- Facility specific access added later
- Familiarize yourself with screens, data layout, user access
- Provide feedback and ask questions
- Documentation and materials needed
- Stay engaged
